***Response to Amendment***

1. The amendment filed on January 13, 2004 has been entered.

***Allowable Subject Matter***

2. Claims 1-21 are allowed.
3. The following is an examiner's statement of reasons for allowance:
4. Regarding claims 1-19, the statement for reasons for allowance were disclosed in the previous office action.
5. Similarly, claims 20 and 21 contain allowable subject matter for at least the same reasons as claims 10-19, namely that during a given time frame, from a first spectral band are processed then signals from a second band are processed and at the conclusion of the given time frame the signals are read out. Again, as stated in the previous office action, conventional art uses a similar method in that it detects the signals from the various wavelengths, then processes to readout the signals, and then processes or integrates, but does not disclose the steps as indicated above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
